HONGKONG, BATURDAY, SEPTEMBER 17, 1881.

THE discussion in the Legislative Council upon the Chinese passenger truffic from this Colony furnishes a very fair illustration of the fitful manner in which legislative deliberations are here carried on. As the Hon. F. B. Johnson lately said, "Questions of concern to the community are constantly arising which it would be most desirable to have discussed in Council, but when it is uncertain if a sitting will take place this month, next month, or three months hence, public interest in them flags, no preparation is made to get up the subject, which soon becomes forgotten and laid Now, the motion of this hon. gentleman, to lay on the table certain paper relating to the passenger truffic through this Colony, fairly illustrates this defect in the system so clearly exposed by the independent member. The motion was made on the 23rd of Aug., and there is little chance of the papers being laid on the table for a couple of months to come. By that time, it may be. "public interest in them" may have flagged, and the object of the motion may be almost entirely defeated. It is not to be supposed that any subject of importance which can be postponed will be advanced in the slightest degree during the reign of His Excellency the

He put it thus-

Looking now to the statesmen of Australia, may I venture to say this on their behalf, that the statesmen of Australia are. statesmen in a great European community. The future of Australia is to be the home of white men from England, Ireland and Scotland, and the prosperity of Australia depends on emigration from the United Kingdom. Anything that tends to check emigration from the United Kingdom tends to check the future prosperity of Australia. What has been the effect of Chinese emigration? It has been proved that it checks emigration from the United Kingdom. Of workmen who can manage to undersell in famous Hongkong Census Speech, which the wages market the people who were in the habit of going from England, Ireland, the Governor or the Press Commissione and Scotland, naturally enough you stop emigration from the old country. A statesman's wish and ambition being to found a great white population for that portion of Her Majesty's empire, if you do something to check that, he may say, "I shall do a can to check the immigration into the Colony of people who do not come as permanent colonists and whose coming prevents others who would be permanen colonists." I agree with the remarks my hon, friend as to some of the objections but not as to that taken by the statesman

refer to, those taken by Sir Henry Parkes. It would probably be unfair to say that Governor Hennessy would sympa thise with Sir Henry Parkes and his colleagues in all that they have done in the Ocean case; but the principle is the same, whether or not it be carried t such a nitch as has now been revealed "All they can," and perhaps a little more than they can legally, is evidently being done by the statesmen of Australia-at least in New South Wales-to prevent the immigration of Chinese into their future "empire of white men and the fact is worth noting that Si John Hennessy, the champion of races and all colours, except his own, now stands forward as the advocate of instifiable and unconstitutional proceedings. A peru al of the speeches delivered here nearly a mouth ago in Council will, we think, place the truthfulness and justice of Mr Johnson's remarks in strong contrast to those that fell from His Excellency; and the last sentence of one of Mr Johnson's adsixty newspapers, dailies and weeklies, dresses becomes now more striking and

> member said :-Our duties in this Colony appear to me to be clear to respect and maintain the Imperial laws, but not to strain them or to mould them to suit the views of the Colonists in Australia, whose policy, dictated and governed by the votes of the residuum, will only be changed when time and oxperience have demonstrated its norrownes and shortsightedness.

OUR readers may remember an articl which we reprinted some time ago (Augus 20th) from the columns of the Ceylon Time of July 27, appearing under the heading "A Commercial Gibraltar." That leading article purported to be a review of th statement submitted by Governor Henness to the Legislative Council of Hongkon in June last, in laying the census papers of the table. That review came to be written because (1) the Hon. Bruce L. Burnside the present Attorney General of Ceylon (who was Attorney General of the Bahama when Mr Hennessy was Governor there some ten years ago), handed over to the course if you send to Australia a class of Editor of the Ceylon Times the copy of the had forwarded to him ; (2) the editor of the Colombo paper believed it probable that Sir John might pay Ceylon a visit on his way to England; and (3) it was not beyond the region of possibilities that Governor Hennessy might some day rule over the Colony of Ceylon, with its Councils, its Commissions and Committee, its companies. and its coffee, cinnamon, cocso, cardomoms, citrons, cinchons, and coccanut, its coast coolies and its Cinghaless cultivators The object of the article was to prove that the census returns, taking them as the Governor put them, demonstrated the true wisdom of the policy which Sir John Pope Hennessy has pursued towards the native population, as well as the excellent results that had flowed from it. The manner in which this was done we gave our readers the best opportunity of judging by reproducing the article. The article did not require editorial comment, and we let it go for what it was worth, confident that, however much trouble the Ceylon Times might condescendingly take to inform the these colonial protectionists in their un- European residents of Hongkong how remarkably happy and contented, if not proud, they should be to have a Hennessy placed over them, our readers know too well where the shoe pinched to be bamboozled into a belief that the said shoe was a "splendid fit." The question whether Ceylon has a Hennessy in store for it has been taken up by the Ceylon Observer, the paper of the Coffee Colony, and is dealt. with in a vigorous "leader" which we take over from our contemporary. Having been the cause of our readers awallowing the bane, we now give them an opportunity of taking the antidote. The Observer emphatically disclaims any desire that Ceylon's next Governor should be Sir John Hennessy, with whose history and idiosyncrasies he seems to be well acquainted. We believe the two and a half millions of people occupying that pleasant and pretty possession of Her Majesty need have little or no fear of the present inst., by the O. & O. S. S. Belgio Co. s Governor of Hongkong being placed over them for many a long day to come. The Governorship of Ceylon, with its Rs. 80,000 per annum, is what is vulgarly called one of the "soft things" of the Service; and Sir John Hennessy does not stand so high with the powers that be at Matina :- Venite, Tucker No. 3; Psalms the Colonial Office as to come within the charmed circle from which the next Governor of Caylon is likely to be chosen. The father, Mr Luiz G. P. Campos, clerk in the P. & O. The Magistrate sentenced the man to seven days' imprisonment with hard labour without the option Austria. of a fine, the point not being raised which is suggested by certain passages in the recent case disposed of in the Supreme Court, in which Chan Aping was appellant and Inspector Perry respondent. We mean the question whether a man who is found persons forming part of a crowd which has gathered round him may properly be conkeeping "an office, agency or place for dealing in lotteries." > Mr. Petroff, who was deputed to take the census of Alaska, took seven months to count the 30,146 inhabitants of that enormous territory. He sailed 2,500 miles he found "occasional human beings, salmon in millions, mosquitoes in billions," His account of his journeyings along rivers which were overgrown with vegetation, and which at one place ran through a wilderness where the banks and even the bushes and branches of the trees were covered for miles with rotting salmon, is as interesting as any narrative of African exploration. Many of the natives lived in underground dwellings close to the river, which supplied them with their only food. Mr Petroff was more than once in imminent danger of his life. The scenery, he reports, was magnificent, and the quantity of game of all kinds incalculable, but life was rendered intolerable by

the mosquitoes. An Austrian chemist is said to have

NINETY-NINE years ago a whimsical gentleman who had amassed a considerable fortune at St. Ives with the profits of the tourist in Cornwall. His intention was to be buried in the central chamber could not be induced to consecrate the and generally within two hours, unless the religiously applied to those purposes. The THE Germans are very fond of crosses of first representation of this edifying ceremony quennially until further notice.

> The Argus gives the following particulars of the finding of old coins near Melbourne : -A rather extraordinary discovery of money was made on Monday on the Military Road, between Emerald-hill and St. Kilda. Mr H. Clark, one of the manectors connected with the Public Works Department, was standing on the road talking with three men who were seeking employment. In kicking the sand about he turned up a shilling, and on further search being made, a piece of an old sail was found, and in it there was £20 in silver and £24 in sovereigns. The silver was very much discoloured, and had the appearance of old leaden coms, but on examination they were found to be all legitimate coins of the realm. Some of the sovereigns bear date 1716, and are all in an excellent state of preservation. The money was equally divided between Mr Clark and the three men. Since the discovery the ground has been searched by hundreds of persons, farthing. The money was discovered about four yards from where a large sum was found

HEALTH STRENGTH, & ENERGY.

Trade Mark-PHOSPHODYNE. DISCOVERED AND SO NAMED, A.D. 1862

BY R. D. LALOR, M. D. - DR. LALOR'S PHOSPHODYNE is a Pure Solution of PHOSPHOROUS in combination with the Vegetable Alkaloids Quinim, Cypripedin, Xanthoxylin, &c., prepared by a Chemical process known only to DR. LALOR, producing a remarkably Elegant and Pleasant Tasted Preparation, equal to the best Wines, Prefectly free from Strychnia and all other Dangerously Active Drugs; superseding the numerous objectionable forms of Phosphorous Pills, Pilules, Oils, and other Nauseous Mixtures with which the Market has been flooded since the Phosphoric Treatmer of Disease was first made Public by DR. R. D. LALOR, in 1862.

To Residents in India, China, and the Colonies, it will prove invaluable as a RELIABLE Liver Tonic and a Vitalizing Restorative.

This Phosphatic combination, the Wonder of Modern Chemistry, is pronounced by the mos eminent members of the Medical profession to be unequalled for its power in replenishing and elaborating the Vitality of the Body; by its supplying all the essential constituents of the BLOOD, BRAIN, and NERVE SUBSTANCE; and for developing all the Powers and Functions of the system to the highest degree; by its being agreeable to the palate, and innocent in its action. White retaining its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the PRESENT AGE, for the SPEEDY and PERMANENT CURE of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Dobility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatuleuce, Nervous Faucies, Hypochondria, Nervous Debility in all its Stages, Loss of Memory, Softening of the Brain, Paralysis, Affections of the Spinal Column, Lumbago Sciation, Affectious of the Kidneys, Bladder, Urinary Deposits, &c., Ague, Spasms, Asthma Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Rickets (in children), Wasting or Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid conditions of the system, dependent upon the deficiency of THE VITAL FORCES, whether arising from Climate, Brain Fag, or whatever

natural Restonative, its Energising Effects are not followed by corresponding re-action; but are PERMANENT; and are frequently shown from the first day of its administration by a remarkable increase of Nervous Power, with a feeling of Vigour, Strength, and Comfort, to which the patient has long been unaccustomed. DR. LALOR'S PHOSPHODYNE gives back to the Human structure in a suitable form the Phosphoric or Lively Animating element of life which has been wasted, and exerts an important influence directly on the BRAIN, SPINAL MARROW, AND NERVOUS SYSTEM, of a Nutritive, Tonic, and Invigorating character; thereby checking all Westing of the Vital Finid, and the more Exhausting Processes of Life, maintaining that Buoyant Energy of the Brain and Muscular System which renders the MEED CHEERFUL, Happy, BRILLIANT, and ENERGETIC; ontirely overcoming that Dull, Inactive and Sluggish disposition which many persons experience in all their actions. A Marvellous Restorative for

DR. LALOR'S PHOSPHODYNE being

all who are angaged in the Competitive Strug-PHOSPHODYNE, the Antidote for Climatic Case of Disease. The Remedial properties of DR. LALOR'S PHOSPHODYNE have spread its fame throughout every Nation and Country in the World, the natural outcome of which is that the sale has now become enormous in India China, Africa, and other Hot Climates. This increased demand is attributable to the fact of its possessing in the most perfectly assimilable form the essential Vitalising properties of PHOSPHORUS, which resumstes the Exhausted functions of Life when impaired by Heat or other causes. A very large number of Testimonials from all parts of the World freely offered from Distinguished Families, Private Persons, Military, Naval, Scientific and Pr. fessional Men who are well known, speak of its marvellous powers in Nervous Dability, WANT OF STAMINA, FEVERS, MALARIOUS DIS EASES, and as a LIVER TONIC.

Brain Toilers, Clergymen, Business Men, and

NORMANDY BUTTER IN TIN

SPECIAL NOTICE.

Those friends who will keep our. Butters shall have their names inserted as Importers in our advertisements free of charge if they will advise us of their intention through

their friends here. It has just come to our knowledge that certain parties have been for some time past obtaining our disused Butter tins and refilling them with an inferior class of Butter. We therefore advise our friends to be very careful in purchasing to see that the time they get have not been tampered with, as all Butters packed at the Beurrerie Normande are warranted not to contain any mixture of other Foreign Butters, but to be pure Normandy. 14my81 1w

THE CHINA REVIEW.

THE widely-expressed regret at the dis-continuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

The China Review, or Notes and Queries on the Far East, is issued at in-

tervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, dec., should the papers published demand, and the circulation justify, such

Vessel's Name.

extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Por-French, German, Spanish, Italian or Porare admissible. Endeayours are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

department. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is desirable to make the Querles proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scho-lars are ascertaining about China. The lecture on Chinese Poetry in this volume alone worth the price of the Review. Ad dress China Review, Hongkong. - Northern

Christian Advocate (U.S.) Trubner's Oriental Record contains the fol lowing notice of the China Review :- " Thi Is the title of a publication, the first number of which has lately reached us from Hong kong, where it has been set on foot as some respects a continuation of Notes an Queries on China and Japan, the extinction of which useful serial a year or two ago ha been much regretted in Europe as well in China. Thepresent publication, judgin by the number now before us, is intended occupy a position, as regards China and the neighbouring countries, somewhat simil to that which has been filled in India by th Calcutta Review. The great degree of tention that has been bestowed of late year upon the investigation of Chinese literature antiquities, and social developments, to se nothing of linguistic studies, has led to th secumulation of important stores of inform ation, rendering some such channel of pu licity as is now provided extremely desi able; and contributions of much intere may fairly be looked for from the membe of the foreign consular services, the Chine Customs' corps, and the missionary bod among whom a high degree of China scholarship is now assiduously cultivate and who are severally represented in the fi number of the Review by papers high creditable to their respective authors. a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place honour is deservedly given, an excellent summary is presented of the chronologic problems and arguments involved in co nexion with this important work. So, translations from Chinese novels and pla are marked by both accuracy and freshme of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Sn Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was fak displayed during the lifetime of its predecessor in the field, and that the China Review Mess. may receive the support necessary to insure blide its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hong-kong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore,
Penang, Saigon, and other places frequented
by the Chinese,—consider themselves
justified in guaranteeing an ultimate
circulation of between 3,000 and 4,000
copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description-conducted by native efforts, but propressive and anti-obstructive in toneis almost limitlees. It on the one hand commands Chinese belief and interest while on the other it deserves every aid that can be given to it by foreigners.

Like English journals it contains Editorials,
with Local, Shipping, and Commercial
News and Advertisements. Subscription orders for either of the
